Amendment Number and Question HJR4

Shall Section 2, Article III, of the Constitution of the State of Idaho be amended to require that the Senate shall consist of thirty-five members; and shall Section 4, Article III, of the Constitution of the State of Idaho be amended to require that the Legislature shall be apportioned to thirty-five legislative districts?

Legislative Council's Statement of Meaning, Purpose, and Results to Be Accomplished

The purpose of the proposed amendment is to permanently set the number of senators in the Idaho Legislature, as well as the number of legislative districts in Idaho, at 35. (There are twice as many representatives as senators, which this amendment would not change.) Since 1992, there have been 35 districts and senators, but the Idaho Constitution permits as few as 30 and as many as 35 districts and senators, with the number determined during redistricting (the process of redrawing legislative district boundaries after a United States census). If this amendment is adopted, the number of districts and senators would be fixed at 35 and could not be changed during redistricting.

Soda Springs Joint School District No. 150, Caribou, Bear Lake and Bonneville Counties

QUESTION: Shall the Board of Trustees of Soda Springs Joint School District No. 150, Caribou, Bear Lake, and Bonneville Counties, State of Idaho, be authorized, upon the affirmative vote of fifty-five percent (55%) of the electors of the District voting in the November 3, 2020 election, to levy a School Plant Facilities Reserve Fund Levy in the amount of up to Four Hundred Ninety-Eight Thousand and no/100 dollars (\$498,000), for fiscal year beginning July 1, 2021 and continuing each year in the amount of up to Four Hundred Ninety-Eight Thousand and no/100 dollars (\$498,000) for ten (10) years for the purposes of acquiring, purchasing, or improving school sites; constructing, adding to, remodeling, improving or repairing any existing buildings; purchasing or leasing of modular classrooms; and furnishing and equipping any buildings, including all safety, security, lighting, heating, ventilation, and sanitation facilities and appliances and technology upgrades necessary to maintain and operate the buildings of the District?

The estimated average annual cost to the taxpayer on the proposed levy is a tax of \$71.08 per \$100,000 of taxable assessed value, per year, based on current conditions. Currently, the District collects a school plant facilities reserve levy authorized in the same amount of \$498,000, which will expire when the proposed levy goes into effect, so the proposed levy will not change the tax per \$100,000 of taxable assessed value based on current conditions.

Ririe Joint School District No. 252, Jefferson and Bonneville Counties

QUESTION 1: Shall the Board of Trustees of Joint School District No. 252 be authorized to issue general obligation school bonds of the District in a principal amount not to exceed \$1,200,000, to become due in such installments as may be fixed by the Board of Trustees, for a term not to exceed twelve (12) years, for the purpose of financing the costs of necessary maintenance improvements to existing buildings of the District, all as provided in the resolution of the Board of Trustees adopted on August 25, 2020?

The bonds will be used for maintenance projects on existing school facilities. The interest rate anticipated on the proposed bonds is 1.36% per annum. The District has existing indebtedness in the amount of \$746,372. The total amount of debt to be repaid over the life of the proposed bonds, principal and interest, based on the anticipated interest rate, is estimated to be \$968,383, consisting of \$1,200,000 in principal and \$152,839 of interest, totaling \$1,352,839, less \$384,456 in estimated bond equalization payments. The term of the bonds will not exceed twelve years.

The estimated average annual cost to the taxpayer on the proposed bond levy is a tax of \$44.58 per \$100,000 of taxable assessed value, per year, based on current conditions.

The bonds will be used for the construction of a bus/maintenance facility, a wrestling room, an auxiliary gym, and a visitor locker room. The interest rate anticipated on the proposed bonds is 1.13% per annum. The District has existing indebtedness in the amount of \$746,372. The total amount of debt to be repaid over the life of the proposed bonds, principal and interest, based on the anticipated interest rate, is estimated to be \$4,996,747, consisting of \$6,415,740 in principal and \$564,760 of interest, totaling \$6,980,500, less \$1,983,753 in estimated bond equalization payments. The term of the bonds will not exceed twelve years.

The estimated average annual cost to the taxpayer on the proposed bond levy is a tax of \$230.01 per \$100,000 of taxable assessed value, per year, based on current conditions.
